

NEPAL ELECTRICITY AUTHORITY
(A Government of Nepal Undertaking)
FINANCE DIRECTORATE
POWER SECTOR REFORM AND SUSTAINABLE HYDROPOWER DEVELOPMENT PROJECT
Asset Verification and Valuation in Nepal Electricity Authority (AVNEA)

REQUEST FOR EXPRESSIONS OF INTEREST
(CONSULTING SERVICES – FIRMS SELECTION)

First Publication Date: April 24, 2019

Country: Nepal

Name of Project: Power Sector Reform and Sustainable Hydropower Development Project

Assignment Title: Asset Verification and Valuation in Nepal Electricity Authority

Reference No.: PSRSHDP/CS/QCBS-01

1. The Government of Nepal (GoN) has received financing from the World Bank towards the cost for Power Sector Reform and Sustainable Hydropower Development Project (PSRSHDP) and intends to apply part of the proceeds for consulting services to carry out asset verification and valuation of Nepal Electricity Authority (NEA).
2. The consulting service (“the Services”) is for verification and valuation of assets in NEA. The principal activities are:
 - Conduct physical verification segregating into various components of Property Plant & Equipment (PPE) and inventories under NEA’s ownership and control.
 - Develop separate database/register for PPE and inventories respectively based on types of PPE & inventories.
 - Conduct valuation as per NFRS based on the identified nature and condition of PPE/Inventories as agreeing with NEA on suitability of valuation method, useful lives and other aspects as applicable.
 - Update database/ register of PPE/Inventories respectively based on valuation.
 - Recommend appropriate adjustments including write-offs and disclosure requirement with justifications based on verification and valuation.
 - Recommend adjustments required for outstanding inter-unit balances on PPE/ Inventories based on verification and valuation.
 - Develop standard operating procedures/manuals for PPE and inventories respectively in consultation with NEA based on NEA’s nature of business and Nepal Financial Reporting Standards.
 - Conduct training on verification and valuation methodologies as per developed operating procedures/manuals and updating of the database.

The estimated duration of these consulting services is eighteen (18) months.
3. The NEA now invites Expression of Interest (EOI) from interested and eligible consulting firms (“Consultants”) to provide the above-mentioned Services. Interested consulting firms should provide information demonstrating that they have the required qualifications and relevant experience to perform the Services. All submittals from the consulting firms shall be in English language. All interested consulting firms, including JV firms, must meet the minimum requirements:
 - have at least seven (7) years of working experience in the relevant field
 - have at least one (1) completed contract in each area of physical verification and valuation or combined for an electricity utility(ies) with an annual turnover greater than US\$ 300 million.
4. Consultants may associate with other firms to enhance their qualifications, but should indicate clearly whether the association is in the form of a joint venture and/or a sub-consultancy. In the case of a joint venture, all the partners in the joint venture shall be jointly and severally liable for the entire contract, if selected. Experience and qualifications of parent or subsidiary of the firm will not be considered for evaluation.
5. The attention of interested consultant is drawn to paragraph 1.9 of the World Bank’s Guidelines: Selection of Employment of Consultant under IBRD and IDA Credits & Grants by World Bank’s borrower- January 2011, revised July 2014 (“Consultant Guidelines”), setting forth the World Bank’s policy on conflict of interest.
6. EOIs will be evaluated based on the Consultant’s qualification and experience and organization strength of consulting firm. The short listing criteria are:
 - Core Business and Years of Experience

- Relevant Experience
- Technical Capacity of firm
- Managerial Capacity of firm

Key Experts will not be evaluated at short listing stage.

7. Based on evaluation of EOI, only shortlisted firms will be invited to submit technical and financial proposal through a request for proposal. A Consultant(s) will be selected in accordance with the Quality and Cost Based (QCBS) selection method set out in the Consultant Guidelines.
8. The Terms of Reference (ToR) and this request for EOI can be either downloaded from the NEA's website: www.nea.org.np or collected from the address mentioned below. Further information can be obtained at the address below during office hours from 10:00 to 17:00 hours.
9. Expression of interest must be delivered in in a written form (in person/by mail/ by e-mail) to the address below no later than 13:00 hrs NST on June 09, 2019.

Consulting Services for Asset Verification and Valuation in Nepal Electricity Authority

1. Introduction

Nepal Electricity Authority (NEA) was established on August 16, 1985 under Nepal Electricity Authority Act. 1984 through the merger of the Department of Electricity, Ministry of Water Resources, Nepal Electricity Corporation and related Development Boards. The primary objective of NEA is to generate, transmit and distribute adequate, reliable and affordable power by planning, constructing, operating and maintaining all generation, transmission and distribution facilities in interconnected and isolated sector in Power System of Nepal.

NEA carries out its' functions through the following eight directorates established under Managing Director:

- (a) Distribution and Consumer Service Directorate
- (b) Generation Directorate
- (c) Transmission Directorate
- (d) Planning, Monitoring and IT Directorate
- (e) Engineering Service Directorate
- (f) Project Management Directorate
- (g) Administration Directorate
- (h) Finance Directorate

Distribution and Consumer Service Directorate:

The major activities of this directorate include planning, expansion, operation, maintenance and rehabilitation of the electricity distribution networks including substations up to 33 kV voltage level and consumer services activities such as new consumer connections, meter reading, billing, and revenue collection. The directorate has lately introduced some of the smart meter reading and billing techniques as a pilot projects in the Kathmandu valley with plans to introduce even better techniques and expand them in the entire areas. The operation and maintenance of off grid small hydro power plants in its area, also falls under the jurisdiction of this directorate.

This directorate carries out its entire operation through Planning and Technical Services Department (PTSD) & Community Rural Electrification Department (CRED) at the Central Level and eight regional offices. DCSD is providing services to consumers through its 127 Distribution Centers spread over the whole country operating under eight regional offices.

Generation Directorate:

Generation Directorate, headed by Deputy Managing Director is responsible for construction of new power projects together with operation and maintenance of NEA owned power stations. The main objective of this Directorate is construct new projects owned by NEA and smooth operation and maintenance of existing power plants with optimal use of resources. The Directorate is supported by four departments, namely Generation Development Department (GDD), Technical Support

Department (TSD), Large Generation Operation and Maintenance Department (LGO&MD), Medium Generation Operation and Maintenance Department (MGO&MD) each headed by Director. It is supported by three divisions/sections namely, Finance, Administration and Monitoring and IT. At present, this Directorate is taking care of construction of the following four new hydropower projects.

- Kulekhani III Hydroelectric Project (14MW)
- Rahughat Hydroelectric Project (40 MW)
- Upper Trishuli 3'A' Hydroelectric Project (60MW)
- Chameliya Hydroelectric Project (32 MW)

LGO&MD is responsible for five (5) hydropower and one (1) thermal plant above 30MW installed capacity owned by NEA. Similarly, MGO&MD is responsible for twelve (12) hydropower and one (1) diesel plant which are below 30MW installed capacity owned by NEA.

Transmission Directorate:

Transmission Directorate is responsible for development, implementation and operation of high voltage transmission system. This directorate performs its daily activities through three departments' viz. Grid Operation Department (GOD), System Operation Department (SOD), Grid Development Department. Construction, Monitoring and Operation of Transmission Lines and Substations to evacuate power generated by both NEA and IPP owned power plants and undertakes reinforcement of the existing transmission system comes under the responsibility of this directorate. 400kV, 220kV & 132kV transmission line and 132 kV, 220 kV Substation has already been constructed and some are under construction. Some Cross border Transmission line has been proposed for construction. Nepal's first 400kV Nepal-India cross-border transmission link has been completed with the leading involvement of this Directorate. In order to develop strong Transmission Network the Hetauda-Dhalkebar-Inaruwa 400kV transmission line, is under construction.

Planning Monitoring and IT Directorate:

Planning, Monitoring and Information Technology Directorate, a corporate wing of NEA is headed by Deputy Managing Director. This directorate is entrusted with directing and monitoring the activities of five departments namely: System Planning Department, Corporate Planning and Monitoring Department, Information Technology Department, Power Trade Department and Economic Analysis Department. Each of these departments is headed by a director. System Planning Department is responsible for carrying out load forecasting, generation planning and transmission system planning of power system of Nepal. Corporate Planning and Monitoring Department is entrusted with the responsibility of developing Corporate Plan of NEA along with monitoring and evaluating NEA-implemented projects. Information Technology Department develops innovative IT services so as to modernize various activities of NEA. Power Trade Department is responsible for trading of power both in domestic as well as in international market as per NEA's strategy and policy. Finally, Economic Analysis Department carries out financial analysis of projects and proposes electricity tariff & service charge adjustments.

Engineering Service Directorate:

Engineering Services Directorate is entrusted with the responsibility to carry out engineering studies beginning from the identification to detailed engineering design, environmental studies, geological

and geotechnical studies. It is headed by a Deputy Managing Director. The Directorate has rendered its services to NEA and private sector particularly for the study of hydropower and transmission line projects. The Project Development Department, Soil Rock and Concrete Laboratory, Environmental and Social Studies, Dudhkoshi Storage Hydroelectric Project and Upper Arun Hydroelectric Project provide these services to various departments within NEA and to the private parties. Likewise, Training Center under Engineering Services Directorate provides the much needed human resources skills and knowledge.

Project Management Directorate:

Project Management Directorate (PMD) in the Nepal Electricity Authority Organogram has a role to execute and to facilitate the projects funded by Asian Development Bank. PMD is responsible for project preparation, procurement and construction of all new and existing projects that is or will be funded by ADB. In addition to the execution of SASEC- Power System Expansion Project, PMD is coordinating, monitoring and reporting the implementation activities of the projects that are being run under Energy Access and Efficiency Improvement Project (ADB Loan 2587, Grant 0182 and Grant 0183), Electricity Transmission Expansion and Supply Improvement Project (ADB Loan 2808, Grant 0270 and Grant 0271) and Project Preparatory Facility for Energy (PPFE). Recently, another ADB funded project under loan no. 3542 PTDEEP (Power Transmission and Distribution Efficiency Enhancement Project) is being implemented by PMD.

Administration Directorate:

Administration Directorate is responsible for human resource management, logistic support, property management. Public relations enhancement, legal service and recruitment & promotion related activities of the organization. This Directorate is led by Deputy Managing Director and supported by four departments, namely, Human Resources Department, General Services Department, Legal Department and Recruitment Department; each department is led by a Director

Finance Directorate:

The Finance Directorate, headed by a Deputy Managing Director (DMD), is responsible for carrying out overall financial and accounting functions of NEA. Key responsibility areas include revenue administration, accounting system operation, budgetary control and treasury management. The finance wing is also responsible for financial planning, control and monitoring at corporate level of decision-making process. Two functional departments, namely Accounts Department and Corporate Finance Department, are structured to support the finance wing. Both Departments are headed by an individual Director responsible for its functional areas of operation and report directly to the DMD, Finance. A separate project office, Institutional Strengthening Project, has been placed in operation to implement Integrated Financial Management Information System (IFMIS) and Nepal Financial Reporting Standards (NFRS) under Accounts Department.

NEA Existing system for Inventory and Asset

For Inventory Management and Accounting system, NEA has been using locally developed CAIS (Customize Accounting and Inventory System). CAIS System is Desktop based application developed Visual Basic with database in Oracle 8i. All Inventories details and accounting records are currently

maintained in CAIS. Fixed assets details are maintained separately in Assets Management Software (AMS).

2. Objective

The objective of this Consultancy Service is to conduct Physical Verification of Asset & Inventories, develop Database/Register, Carry out valuation, recommend adjustments based on valuation and develop standard operating procedures/ manuals for PPE& Inventories as per NFRS.

3. Scope of Work

- (a) Conduct Physical Verification segregating into various components of Property Plant & Equipment (PPE) and inventories under NEA's ownership and control as per Nepal Financial Reporting Standard (NFRS).
 - Physical verification of PPE should also identify obsolete, damaged & non-existent PPE.
 - Physical Verification of inventories should also identify slow moving, non-moving, obsolete and damaged inventories.
- (b) Develop separate database/register for PPE and inventories respectively based on types of PPE & inventories. The database should be developed with required information as agreed with NEA also based on compatibility with ERP application that NEA will implement in the near future to ensure seamless data transfer to NEA ERP.
 - The database should be developed in a manner that can be updated regularly with periodic physical verification/valuation.
- (c) Conduct valuation as per NFRS based on the identified nature and condition of PPE/Inventories as agreeing with NEA on suitability of valuation method, useful lives and other aspects as applicable.
- (d) Update database/ register of PPE/Inventories respectively based on valuation.
- (e) Recommend appropriate adjustments including write-offs and disclosure requirement with justifications based on verification and valuation.
- (f) Recommend adjustments required for outstanding inter-unit balances on PPE/ Inventories based on verification and valuation.
- (g) Develop standard operating procedures/manuals for PPE and inventories respectively in consultation with NEA based on NEA's nature of business and NFRS.
- (h) Conduct training on verification and valuation methodologies as per developed operating procedures/manuals and updating of the database.
 - The training program will be conducted regionally (e.g. Kathmandu, Biratnagar, Janakpur, Hetauda, Butwal, Nepalgunj, Pokhara, Attariya). The duration of training will be decided later on. The consultants will prepare procedures for maintaining the asset register and train NEA staff in these procedures. Conduct training on the valuation methodology. Prepare training materials, templates and carry out trainings for staff. One of the trainings shall include the use of the new IT system. The consultant shall be involved in capacity building and institutional strengthening of the staff.

- (i) Expected to provide support service in case of technical difficulties for maintaining the database for 2 years post contract completion, which will be processed through a separate contract.
- (j) The list of kinds of material, PPE/ Inventory under NEA’s ownership and control is specified in **Annex 1**.

4. Summary of Outputs and Activities

The Consulting Firm will support the attainment of performance targets corresponding to fixed assets management and inventory management of all the divisions/units under NEA.

| Activities | Outputs and deliverables | Expected Completion Date |
|--|--|--------------------------|
| <p>The Consultant should carry out an analysis of the NEA’s existing documentation of assets:</p> <ul style="list-style-type: none"> a. Register of all assets and other relevant accounting & inventory data; b. Technical documentation; c. Legal documentation. <p>The Consultant should make consultations on the current accounting of assets with the NEA’s various Departments including Accounting, Technical and Legal Departments</p> | Presentation on NEA’s existing documentation of assets | T+1 Months |
| Upon the results of conducted analysis the Consultant should provide a presentation to the Management for agreeing on approach & methodologies. | Inception Report | T+1.5 Months |
| Develop separate database/register for PPE and inventories respectively based on types of PPE & inventories. The database should be developed with required information as agreed with NEA also based on compatibility with ERP application that NEA will implement in the near future to ensure seamless data transfer to NEA ERP. The database should be developed in a manner that can be updated regularly with periodic physical verification/valuation. | PPE/Inventories Database/Register | T+2.5 Months |
| Conduct Physical Verification and populate database/register segregating into various components of Property Plant & Equipment (PPE) and inventories under NEA’s ownership and control as per Nepal Financial Reporting Standard (NFRS) by identifying obsolete, damaged& non-existent PPE and slow moving, non-moving, obsolete and damaged inventories. | Draft Final Report | T+10 Months |
| Conduct valuation as per NFRS based on the identified nature and condition of PPE/Inventories as agreeing with NEA on suitability of valuation method, useful lives and other aspects as applicable. | Valuation Report | T+12 |

Sarjha

| Activities | Outputs and deliverables | Expected Completion Date |
|---|--|----------------------------------|
| Update database/ register of PPE/Inventories respectively based on valuation. | Updated Database | T+13 |
| Recommend appropriate accounting adjustments including write-offs and disclosure requirement with justifications based on verification and valuation. | Report | T+13 |
| Develop standard operating procedures/manuals for PPE and inventories respectively in consultation with NEA based on NEA's nature of business and NFRS. | Manual | T+14 |
| Conduct training on verification and valuation methodologies as per developed operating procedures/manuals and updating of the database at different regional centers of NEA. One of the trainings shall include the use of the new IT system. in capacity building and institutional strengthening of the staff. | Training Manuals and PPE/Inventories Database/register | Continuous During Implementation |

5. Eligibility Criteria for the participatory firm (s)/Company

| S.No. | Particulars | Qualifying Criteria | Supporting Documents Required | | | | | | | | |
|-------|--|---|---|--|---|---------------------------------|--|--|--|--|--|
| 1 | Company's/ Firm's Project Experience | The Company/ Firm should have at least 3 successful project implementation experience regarding Physical Verification, valuation, accounting and financial reporting (as Per IFRS) of Assets & Inventories of any Utility (Turnover of these utility companies should be at least USD 500 million). Experience in South Asian Region shall bear the preference. | Completion Certificate | | | | | | | | |
| 2 | Financial strength of the Company/ firm | The average turnover of the applicant from the last 5 financial years FY 2013-14, 2014-15 2015-16, 2016-17 and 2017-18 shall not be less than USD 50 million from the consulting businesses. The Company/ firm should have earned profits in each of these years. | Audited Accounts of Financial year 2013-14, 2014-15, 2015-16, 2016-17 and 2017-18 | | | | | | | | |
| 3 | Composition of Project Implementation Team | The applicant should have the following key personnel with requisite qualifications and experience, as partners or employees of the company/ firm as on the bid submission date, who will become the part of Project implementation Team. The estimated Key Staff inputs are 39 person months for international specialists and 174 person-months for national specialists. It is expected that the consultants will propose their required specialists person-months to carry out the tasks as per the Terms of Reference. The breakdown of client's estimated team composition and staff inputs is given below: | | | | | | | | | |
| | | <table border="1"> <thead> <tr> <th>Tasks</th> <th>Estimated International key experts (person-</th> <th>Estimated national key experts (person-</th> <th>Total Estimated (person-months)</th> </tr> </thead> <tbody> <tr> <td></td> <td></td> <td></td> <td></td> </tr> </tbody> </table> | Tasks | Estimated International key experts (person- | Estimated national key experts (person- | Total Estimated (person-months) | | | | | |
| Tasks | Estimated International key experts (person- | Estimated national key experts (person- | Total Estimated (person-months) | | | | | | | | |

6. Implementation Arrangements

Consultants shall be based in the field for the duration of their assignments. All international consultants are anticipated to be on field for at least 70% of their time. The consultants shall liaise with WB/NEA and will report to the project director and guided by a Project Coordination Committee (PCC) of NEA. Consultants shall be responsible for their own personal computers, and other equipment that they may require for the execution of their work and for producing reports.

NEA will be the executing agency. A project implementation unit at NEA will be established, headed by a project director and guided by the project co-ordination committee chaired by the Managing Director and involving concerned departments in NEA. Consultants will work closely with the project co-ordination committee. PCC will control and monitor Consultant's work at any stage of project realization. Wherein all costs incurred for control of project realization by NEA will be the Consultant's responsibility. NEA and Finance directorate will provide and make available the following facilities, equipment, and services as counterpart financing for the project.

1. Counterpart staff/technical staff;
2. Organizational support on all arrangement for workshops, meetings and field visits, access to information such as financial records, technical specifications, maps.

7. Consultant's Facilities

- Housing and Office for Consultant: The Consultant shall arrange its own accommodation and office.
- Consultant's Transportation: The Consultants shall arrange the rental vehicles including all necessary costs, such as drivers, fuels, maintenance fees, and insurances.
- Equipment and Miscellaneous: The Consultant shall arrange the office equipment including computers with necessary software at their own.
- International Trips and Hotel Accommodation in Kathmandu: The cost of all travel and accommodation shall be included and arranged by the Consultant.

8. Remuneration and Payment

- Terms of Payment for Consulting Services: Payment shall be made based on deliverable and output.
- Reimbursement: The Consulting team shall get the reimbursement of expenses based on actual expenses on submission of bills as specified in the agreement.

9. Brief Status of Existing System

For statistically data of existing Generation, Transmission and Distribution network and other relevant information are as follows:

- Annex 1: List of PPE/ Inventory under NEA's ownership
- Annex 2: Details of Power Plant
- Annex 3: Details of Transmission Lines

Sarjita

Annex 4: Details of High Voltage Substations

Annex 5: Details of Distribution Networks

Annex 6: List of Offices as per CAIS

Annex 7: Details of Land

Annex 8: List of Buildings

Annex 9: List of Stock

For other statistical data please visit to:

http://www.nea.org.np/annual_report

10.Duration of Services

The assignments will be undertaken during 18 months of implementation period.

A handwritten signature in blue ink, appearing to read 'Sagar', is placed over a small rectangular stamp.
